Bold Tone Adopted By Istanbul Taken To Indicate Russian Encouragement—Italian Troops Expected In Rumania

ANKARA, Turkey, Oct. 16.—President Inonu received the new Soviet ambassador today in the presence of the Turkish army chief of staff.

The meeting was held amid unofficial reports here that Turkey would go to the aid of Greece if the latter were attacked. There were still other reports from Sofia, Bulgaria, last night that Turkey and Russia might negotiate a mutual assistance pact, but confirmation was lacking.

The foreign office spokesman was quoted to the effect that Turkey also would intervene in the event of an attack on Greece from the direction of Bulgaria.

The interview assumed special importance in view of the fact that Marshal Fezi Chackmak, chief of the Turkish army, sat in with President Inonu and the Soviet ambassador, Sergei Vinogradov.

BUDAPEST, Oct. 16.—Reports that Turkey and Soviet Russia are next agreement on a military alliance designed to block axis penetration into the near east spread through the Balkans today as Germany poured more troops and equipment into Rumania.

Bulgarian Communist sympathizers in Sofia, where the reports originated, said President Inonu of Turkey was expected to announce the pact to the national assembly in Ankara Nov. 1.

Turkish government circles maintained, but the inspired press asserted that neither Turkey nor her "close friend" Greece could be "intimidated" by Germany, or by any other one.

TURKEY DEFIANT
"Turkey has no intention of changing existing friendships," it determined to defend her independence and is still peacefully inclined," said the newspaper Ustus Turkish government party organ.

Turkey counts among her friends both Russia and Great Britain. Growing anxiety in Turkey over the Balkan situation was reflected in reports from Istanbul that the government had chartered three British aircraft to ferry Turkish government officials to Ankara.

Greece also showed its concern by calling to the other engineers and communications specialists of the clan of 1938.

This action coincides with reports that several ships of German submarines had joined Italian forces in the Adriatic, raising the possibility of a thrust through Greece toward the Balkans, strategic gateway to the Black Sea.

Story Of Dramatic Rescue

Queen Elizabeth listens as George Woodward describes how he and two other rescue workers labored for seven and one-half hours to save a 14-year-old girl trapped by falling masonry during a London air raid. When the Queen heard out her hand, Woodward said: "I'm sorry, but my hands are dirty." The Queen insisted on shaking hands, however, and so did the King.

Heavy Destruction Caused In London By German Night Raiders

Attack Is Believed Worst Since Days Of Early September—Many Homes and Buildings Are Damaged

LONDON, Oct. 16.—German planes returned to the attack on London on timeclock schedule tonight and the guns of the city's outer defenses extended a welcome that grew warmer and warmer as the raiders closed in. Bombs began to fall almost at once. Dirty weather prevailed.

LONDON, Oct. 16.—Rescue guards today for persons entombed in one of the worst overnight bombardments in 40 days of continuous air siege of London while Nazi planes roved the coast of England, Scotland and Wales.

CAVADA SOOTHES IMPATIENCE OF ITALIAN PEOPLE
The air and home security ministries, calling the night attack "widespread and quite serious," said the number killed was "less than in other recent raids, but considerably" less than in early September, when the German air force first laid siege to London, and damage likewise "was not as great."

ROME, Oct. 16.—Virginio Gladio, chief of the Italian air force, said tonight that the Italian air force was "not as great" as the German air force, but that it was "not as great" as the German air force.

Writing in Il Giornale d'Italia, Gladio outlined the difficulties facing the Italian air force, the necessity of clearing the expeditionary forces from the Italian peninsula and inland bases, and the necessity of building new airfields as well as maintaining the existing ones.

He declared the Italians have pushed 30 miles beyond Sir Barrington to the north coast of the British base at Matruh.

Other Italian remarks concerning the disposal of United States participation in the actual war.

"If you came in the war party politics would interfere with the final settlement," he declared. He also said that "Jerry is getting the worst of the war" and that it is "absolutely necessary" for Russia to participate in "any settlement of the war."

Visit Of Interned Priests To Shrine Being Considered
OTTAWA, Oct. 16.—The department of national defense is considering the recent incident at Quebec City where a group of interned priests and brothers from an internment camp were escorted to the shrine at St. Anne de Beaupre for religious services, Defense Minister Bennett said today.

No action had yet been taken in the case, he said, but an announcement might be made shortly.

CANADA GETS 645 PLANES IN THREE MONTHS

Production Of Canadian Associated Aircraft Firm Excluded

OTTAWA, Oct. 16.—A total of 645 airplanes of various types have been made available for Canadian use in the past three months, Minister of Defense Gordon Gray said today.

The minister's statement excluded the production of Canadian Associated Aircraft Limited from his figures.

The minister's statement on planes for the three month period ended Sept. 30 follows: Planes built in Canada, 136; planes assembled in Canada, 136; planes assembled in the United States, 373.

The minister's statement on employment in the Canadian aircraft industry now totals about 11,000 persons, an increase of about 40 per cent during the last three months.

A \$12,000,000 plant extension program is under way to provide for the growing production of aircraft used in the British Commonwealth Air Training plan and to provide for the production of aircraft at a cost of \$25,000,000 for the construction and overhauling of planes.

Airplane orders placed for Canada as of Sept. 15 in the past three months have amounted to more than \$30,000,000, the minister's statement said.

Others already have been placed in Canada for propellers and instruments not previously made in the Dominion and plans are under way for manufacture of airplane engines in the Dominion.

Kie, Hamburg Are Hard Hit During Attack

Shipping and Wharves Are Blasted With Heavy Bombs—Oil Plants and Depots Are Targets

LONDON, Oct. 16.—British naval units bombarded the German-occupied French port of Dunkerque last night. An admiralty statement said large fires were started and that great damage was apparently caused.

Dunkerque is one of the ports used by the Germans as bases for the expedition they hope to land in Britain.

LONDON, Oct. 16.—The Royal Air Force dropped "large numbers of heavy caliber bombs" during the night on the German naval bases of Kiel and Hamburg, the air ministry announced today.

The main strength of the R.A.F.'s raiding squadrons dropped tons of high explosives on shipping and wharves at those two bases.

The weather was "perfect"—clear, calm, and bright—so that blind flying was necessary; and some of the R.A.F. planes sustained objectives elsewhere in Germany that did not reach their destinations, the air ministry said.

VARIED TARGETS
The raids on the whole were not as destructive as Dunkerque, when the R.A.F. demolished buildings, smoke stacks, tanks and reservoirs at the vital synthetic fuel producing plant at Politz, near Stettin, the ministry's communique indicated; but considering the weather they were successful.

British bombs were dropped on oil plants at Gelsenkirchen, Magdeburg and Krefeld, where oil depots near Kiel also were hit, the communique said.

Other targets were powerful German war machine, other plants which the bombs at freight yards at Schweinfurt, Krefeld, Hamm and Aachen, and railroad junctions at Wehrmann and Halle.

The planes forced from their primary objectives by the weather turned to secondary targets, including German war machine, other plants which the bombs at freight yards at Schweinfurt, Krefeld, Hamm and Aachen, and railroad junctions at Wehrmann and Halle.

GREAT EXPLOSION
They reinforced the attack on the channel invasion ports by the German employment at Cap Gris Nez. All the planes returned to their bases safely.

The fire which broke in the Monday night raid took the air ministry said that a bomb explosion at the port of Hamburg had started a cloud of smoke up 4,000 feet.

"We saw our bombs burst right on the target," he said, and "there was no doubt about it, for about 10 seconds after they had landed there were some pretty heavy explosions which went off about 100 or 200 yards apart."

The pilot told the crew they might just as well circle around a bit to see if anything else happened, and about 90 seconds later another explosion occurred over a tented-up shower of sparks over a wide area.

"The explosion was a cloud of white smoke and steam which the crew said about 100 or 200 yards apart."

Sport's Big Gamble Hits Jackpot at Last

NEW YORK, Oct. 16.—The biggest gamble in sports has hit the jackpot this year. For those who took a chance and hid in yearling thoroughbreds at the Saratoga sales in 1939, the dice have rolled nothing but seven in the racing world, compiling one of the most remarkable records the "hoax auction" has ever boasted.

The leading contenders, king and queen of the two-year-olds of 1940, are **Omaha** and **Level Best**, who came out of the yearling sales in 1939. They were under the hammer for a total of \$11,000 and, to date, have earned \$127,750.

Thirteen of the 26 leading juveniles who have collected \$9,000 or more each during the year's racing were bid in at Saratoga a year ago.

The 18 out of the sales ring have won 23 stakes and earned \$206,002, with the best single count—213, won three.

Henry, Graham and Revere, who were the best single and three-year-olds, have won 12 stakes and earned \$100,000 and \$11,000.

Off his Belmont Futurity victory, his Belmont is generally regarded as most likely to succeed in the throne of the two-year-olds.

He was picked up last year by Revere J. Martin of Toledo, and up to now, in winning three and finishing third in four other stakes, he has collected \$89,850.

Level Best, a flying daughter of Equiano, was selected out of the sales by Captain C. W. of Chicago for \$7,500. She has won six stakes and collected \$100,000 and \$11,000.

Second to her in the yearling sales was **Whirlaway**, which has earned \$30,000. He is a handsome, however, from Warren Wiggly breeding farm, back of the top two, the list of 19 leading two-year-olds, winners shows five from the yearling sales.

They are Cleveland Pulmoner, Seattle, Arlington, Futurity winner, Charles S. "Lucky" Howard's Futurity, and Omaha's Philip.

R is Good Whisky's perfect companion
A good companion allows a friend to express

himself free! That is why water is the perfect companion of good whisky. It allows whisky to tell its own story.

The Seagram Canadian Whiskies are distilled, aged and blended to meet the water test. They are of such exquisite flavour that men who know good whiskies refuse to mix with them.

It is this delightful and exclusive smoothness that has caused the Seagram whiskies to outsell all others on the American continent.

FURTHER AID FOR BRITAIN IN U.S. MOVE

Roosevelt Sets Up Agency To Requisition War Materials

WASHINGTON, Oct. 10.—The possibility of further aid to Great Britain or other powers arose Tuesday night when President Roosevelt set up an agency to requisition a large supply of war materiel.

Any of these supplies which are not needed for United States defense may be sold to friendly powers, the President said.

There were indications that some machine tools, included in the materials in question, might be released to Soviet Russia, now displaying irritation with Hitler's incursions into Rumania.

DELIVERY BLOCKED

The supplies in question had been sold by American manufacturers to foreign purchasers, but delivery had been blocked by the United States government.

in the case of certain machine tools and other supplies, the title already had passed to foreign purchasers, and that legal complications prevented re-sale in the United States. To remedy the situation, congress

The President Tuesday constituted the secretaries of war and navy, acting with the army and navy munitions board, a committee to determine what materials should

to determine what materials would be requisitioned and whether any of them could be spared for disposition elsewhere.
